

Looking for Software Developer Trainees!

Don't have much experience? No problem! We welcome candidates who are willing to learn and to improve their skillset. Our goal is to train you to be a part of our superheroes in ClinkIT Solutions!

Sidekicks' Duties and Responsibilities:

- Evaluate, assess, and recommend software solutions
- Design, develop, and implement new software or modifications to existing software
- Learn to create/do sales presentations and provide technical assistance to clients
- Learn from project managers about daily operations such as creating project plans and monitoring progress of projects
- Acquire skills and knowledge (1) to troubleshoot and identify bugs in existing software, design and release fixes; (2) to create development environment for efficient testing and integration; and (3) to design and model solutions that fit the problem domain
- Attend technical training and practices to obtain other technical/programming certifications as required
- Other tasks may be assigned

Super Skills and Qualifications:

- Candidate must possess at least Bachelor's/College Degree in Computer Science/Information Technology or equivalent
- Less than one (1) year of working experience in the related field, and open to fresh graduates
- Basic knowledge of Microsoft .NET development using C#
- Familiar with web development using HTML5, CSS, JavaScript, and frameworks such as AngularJS
- Problem solving and ability to think laterally as part of a team, or individually, to meet the needs of the project
- Ability to self-learn, positively adapt to changes, and work under pressure

Superhero Benefits and Conditions:

- Work remotely
- Must have reliable and stable internet at home and back-up for remote set-up
- Bring your own device (BYOD)
- Guaranteed monthly salary
- Internet allowance
- SSS, PHIC, and HMDF are covered
- Commitment to full-time, long-term employment
- HMO upon regularization
